PROJECTS

International Day of Persons with Disabilities – 2025 (Govt Project)
https://www.tndiffabledtalent.in/

- Developed the entire responsive UI, taking full ownership of design implementation and accessibility requirements.

- Built features to support users with disabilities, including zoom in/out controls, multiple color themes, and adjustable color saturation, ensuring a comfortable and inclusive user experience.

- Delivered all UI components efficiently under urgent deadlines, ensuring high quality, accessibility compliance, and flawless responsiveness across devices.

Vibexio – AI
https://www.vibexio.ai/

- Developed and optimized multiple pages containing complex 3D animations and interactive UI elements, ensuring smooth performance and fully responsive layouts across devices.

- Implemented both frontend and backend form validations for two major forms, ensuring accurate data handling and seamless user interaction.

- Integrated the forms with Google App Script backend, enabling automated data submission, processing, and notifications.

- Collaborated closely to refine UI/UX flow, delivering a visually engaging, high-performance website with clean, maintainable code.

TechTots

- Developed a user-friendly and intuitive education platform tailored for school students, focusing on clear navigation, engaging UI, and smooth learning workflows.

- Led the entire project end-to-end, taking ownership from initial setup to final delivery after being entrusted with full responsibility by the senior developer.

- Ensured high usability and responsiveness across all devices, delivering a seamless experience that met client expectations and resulted in strong client satisfaction.
